Subject: Versign Whois Inaccuracies Correction Request

> Bruce,
>
> It is Tucows belief that Verisign Registrar sponsors a substantial number
> of
> domains with the contact email address contact information list as
> no.valid.email@worldnic.com. This fictional address, created by Verisign,
> is
> hampering Tucows' ability to conduct transfers for the obvious reason that
> Verisign is unable to re-verify the consent of the Registered Name Holder.
> According to section 3.7.8 of the ICANN Registrar agreement, Verisign
> Registrar has an obligation to maintain accurate contact information for the
> domain names it sponsors and take reasonable steps to correct inaccuracies
> in this information when it is brought to your attention.
>
> Accordingly, we request that your firm immediately investigate the
> accuracy
> of the contact data for the domain names using the
> no.valid.email@worldnic.com address and promptly take reasonable steps to
> correct any inaccuracies that Verisign finds. As an interim measure, it
> would be appropriate for your firm to cease attempting to re-verify the
> consent of the Registered Name Holder until this administrative issue is
> rectified.
>
> We would be grateful if you would advise us how and when the appropriate
> measures will be adopted.
>
> Thanks,
>
